

# Funny How Things Work Out

This book tells Chris Pownalls life story beginning from early childhood to retirement. This autobiography is unique because the author tells his story with a slant towards the more hilarious side of his life. Chris has always had a reputation for being there when things were going wrong-but its nothing to do with him really! His former work colleagues will bear witness to situations involving freak weather conditions and disrupted travelling arrangements. His sense of humour has seen him through many difficult situations-which he managed to salvage with wit and discretion (Even if he says so himself). Chris enjoys humour and receives great satisfaction in giving others a reason to laugh. His fifty years of continuous employment gave him great fulfilment and provided amazing opportunities for travel and experience of many industries and cultures which he shares in this account.

The author has been privileged to work with some highly capable and interesting people; not all are referred to in this book but this autobiography focuses upon those with whom he worked more closely and had the most fun. Life has been full of surprises and opportunities for Chris, and when times were tough, he held on tight and went with the flow with a great sense of humour in tow. The author is grateful that he has a loving wife and family who supported him at critical times in his career and shared in his many antics as is revealed in this book. Despite all the self-effacing humour, the author has a serious side which has driven his search for knowledge at the forefront of sealing technology. His passion was technical sales and would not have chosen any other profession. As you read these stories the author hopes that these yarns no matter how unbelievable some may seem, will not cause offence, as they are not intended to, but will bring a smile to your face as you share in the humour of his hilarious and not so hilarious
