

Measurements of Newtonian Gravitation: Selected Reprints (Reprint Books)

Preface - Much of the content of the Resource Letter was based on work done by the editor on a comprehensive bibliography on the Newtonian gravitational constant. The largest part of the bibliography was prepared while the editor was with the Bureau International des Poids et Mesures in France from 1981 to 1983. The research bibliography was subsequently published in Metrologia as a Supplement to Vol. 24, pages 1-56 (1987).
