

# ISO 9001:2008 Documented Quality Management System: Quality Manual, Procedures and Forms

This is the most comprehensive ISO 9001:2008 system available meeting all the requirements of the ISO 9001:2008 Standard (sold separately) and is ready for your customization. Designed by ISO 9001 Lead Assessors and Consultants with decades of experience, it will ensure success for your project. Make it the foundation of your QMS, and you will make your project efficient and effective. It includes a Quality Manual, 20 Procedures designed to work together to build the systems required by the Standard and all forms required by the procedures. The procedures are complete. They are carefully designed processes that work together to identify goals and objectives, collect data and make improvements to processes and to the QMS. Procedures include recommended responsibilities. All forms required by the procedures are provided. Tables are completed to provide examples of how quality goals and objectives may be set and tracked; the records table is completed with the records from the procedures; the master list is complete with procedures and forms. Templates are included for easy formatting of additional procedures, work-instructions and forms. All documents have been formatted for professional presentation of your QMS. Documents are in Microsoft Word and Excel. Examples are given to assist you in customizing the procedures. All text may be easily edited, and blue text provides examples and highlights areas that must be tailored. The system works in any type of organization. Technical support is provided by email.
