

A Fishermans Guide to Selected High Lakes of Northeast Washington and Northern Idaho

Most fishing guides offer very limited information on a large number of lakes, most of which their authors have never even been near. This book provides detailed information on the lake and surrounding area, as well as directions and fishing tips. All lakes included in this book have been personally visited, photographed, and in most cases fished by the author. While the emphasis is on the fisherman's perspective, the detailed trail and camping information is equally applicable to those who only wish to hike and camp. The lakes selected for inclusion in this book are from Stevens and Pend Oreille counties of northeast Washington, and from Boundary, Bonner, Kootenai and Shoshone counties of northern Idaho. They range from lowland warm water lakes to alpine lakes. Many can be driven to, while others require a hike. The author is a ten-time Washington State record holder, with certified weight records for five different species of fish. Catch data for several hundred lakes, dating back to 1981, has been provided to Washington State fish biologists. Born and raised in northwest Washington and part of a very outdoor oriented family, the author has spent his entire life exploring new places and looking for new waters to fish. So far the search for fishing opportunities has ranged across the states of Washington, Idaho and Montana. Titles published include High Lakes of Northwest Washington, and Lakes of Northeast Washington and Northern Idaho.
