

Destination Unknown: What Happens to Us When We Die? People from Around the World Weigh in on Humanity's Greatest Unsolved Mystery

Do You Know Your Lifes Purpose? Are you looking for more meaning in your life? Are you tired of just getting through each day instead of feeling a sense of purpose and direction? Sometimes the answer to a question is best explored in reverse. In order to find more purpose in life, perhaps we need to go to the enddeathand work backwards from there. Is it possible that contemplating death can lead to more meaning in life? Is There Such a Thing as Life After Death? What happens to us after we die? Do we see our loved ones who have passed? Do we enter a white tunnel of life? Do we go straight to Heaven or Hell? Or is there simply blackness? Since the dawn of time, human beings have been asking these very questions. The subjects of life, death, and purpose are arguably the most important we will ever encounter. Questions of Death, Answers for Life John Clark has tackled the weighty subject of life after death in his newest book, Destination Unknown. Through interviews with people all over the globeBuddhists, atheists, Christians; men and women; young and old; school teachers, IT professionals, and military personnelhe has compiled a tapestry of views on death that are as diverse as the people themselves. Some believe in ghosts, spirits, and other dimensions. Some are sure they will meet God, be judged, and sent to Heaven or Hell. Some have had near death experiences. But no matter what the beliefs, there is a sense that contemplating the great unknownwhat happens when we diecreates more meaning to the days we have left on this earth.
