

Particle and Astroparticle Physics, Gravitation and Cosmology: Predictions, Observations and New Projects: Proceedings of XXXth International Workshop ... International Workshop on High Energy Physics

This unique volume captures the content of the XXXth International Workshop on High Energy Physics. The scope of this volume is much wider than just high-energy physics; it actually concerns and includes materials from all the most fundamental areas of modern physics research: high-energy physics proper, gravitation and cosmology. Presentations embrace both theory and experiment. Readership: Advanced undergraduates and graduate students, and physicists working in the field of high energy physics.
