

Second Language Acquisition: An Introductory Course

Now in a fourth edition, this bestselling introductory textbook remains the cornerstone volume for the study of second language acquisition (SLA). Its chapters have been fully updated, and reorganized where appropriate, to provide a comprehensive yet accessible overview of the field and its related disciplines. To reflect current developments, new sections on using learner corpora, semantics and morphosyntax (within formal approaches to SLA), sociocultural approaches, gesture, priming research, and chaos theory have been added. Students will also find expanded discussions of heritage language learning, bilingualism, pragmatics, and much more. The redesigned fourth edition of *Second Language Acquisition* retains the features that students found useful in the current edition but also provides new pedagogical tools that encourage students to reflect upon the experiences of second language learners. As with previous editions, discussion questions and problems at the end of each chapter help students apply their knowledge, and a glossary defines and reinforces must-know terminology. This clearly-written, comprehensive, and current textbook, by expert Sue Gass, is the ideal textbook for the introductory SLA course in second language studies, applied linguistics, linguistics, TESOL, and language education programs.

MSGs analysis Professional news analysis Search the site Menu Home Trending Our Articles About Us Contact Us Be Environmentally Friendly With These Green Energy Tips Something that several people don't realize about green energy is that it saves money on electricity for your home! While there are numerous benefits for the environment, going green is expanding your knowledge of landscaping to improve your home. For some people, the thought of a well-manicured lawn and beautiful landscaping, is only a reality for large mansions and wealthy home owners. There are a lot of things to solve your acid reflux puzzle thanks to these tips. Everyone knows that a person with acid reflux suffers from discomfort and pain each day. You really can control the acid as long as you learn what steps to take. Business & Economics books? the correct choice to achieve success in the sphere of business. Economics deals with the analysis of human behaviour on choice and the line of attack applied to make related investment and decisions on production? particularly how those decisions are made.
