

The Musical Pickle Mans Tail

Ive written an autobiography in order to leave behind something of myself that might entertain, surprise, or even shock my progeny about my life in particular, and possibly inform or warn them about life in general. May they share both the joys and the heartaches of my many years of wide and somewhat wild experience---if only one could turn back the clock! I found putting the story together from memory and a welter of old records to be very therapeutic; Ive seen reasons for my many wicked failings and been able to forgive myself for all except one of them. Maybe Im not entitled to such clemency but the reader must be the judge of that. Whilst intentionally candid and down to earth, it contains the truth, to the best of my recollection as well as from my diaries and I hope neither the context nor my personal opinions will offend anyone. I brought it to an end after eighty years because if Id waited much longer to conclude, I might not be able to write or even think properly. I hope the reader may find the work interesting, humorous and informative.
