

An Angel to Guide Me: How Angels Speak to Us from the Beyond

Amazing true stories collected from around the world show how many people have had incredible angelic experiences that appear to have been tailor-made for them, speaking to them individually through the senses in the way they recognize and understand the best. These stories are illustrated by inspirational exercises, affirmations, and quotations, which will help readers to connect with the angels themselves. From the story of a mother's vision of her children cradled under an angel's wing to a heavenly concoction cooked up by angels for a young girl far from home, it is clear that the angels are indeed all around, ready to communicate with humans through the gateways of our senses whenever we are willing to welcome them into our lives.
