

Saving Freedom: We Can Stop Americas Slide into Socialism

The United States the worlds great bastion of freedom is sliding toward socialism. Recent high-profile bailouts show the walls between government and the private sector are getting thinner each day. Federal control now extends in various ways to education, healthcare, financial markets, real estate, businesses, and religion. And as out-of-control government spending and debt increase accordingly, America is drained of the economic and political strength its people fought and worked so hard to achieve. But it isnt too late to save the land of the free. Saving Freedom is Senator Jim DeMints firsthand account of the unsettling socialist shift behind-the-scenes actions in Congress that are changing the character of our nation. He illuminates key principles of freedom and how they are being compromised by big government. More important, DeMint lays out a complete action plan to reclaim Americas freedom based on legislation that would reduce debt, fix Social Security, and provide a tax credit for every family to buy health insurance. The plan also emphasizes reversing Americas cultural decline by restoring a strong spirit of God and country.
