

Prespacetime Journal Volume 5 Issue 1: Standard Model, Causal Structure, Modified GR & Origin of Gravity

Prespacetime Journal (PSTJ, <http://www.prespacetime.com>) is a publication in which physicists, mathematicians and other learned scholars publish their research results and express their views on the origin, nature and mechanism of spacetime and its possible connection to a prespacetime. It is also a journal where all learned scholars can present their models and experimental results on elemental particles, fundamental forces including gravity and related topics. This is PSTJ Volume 5 Issue 1 first published in January 2014. It is entitled Standard Model, Causal Structure, Modified GR & Origin of Gravity and contains following articles: (1) Limitations of Perturbative Renormalization and the Challenges of the Standard Model; (2) On the Causal Structure of the Universe; (3) Magnetized Kerr Geometry; (4) FRW Cosmology for Decay Law with Time-varying G , λ & q ; (5) A Brief Note on Graphene and High Energy Physics; and (6) The Connection between Quantum Mechanics & Gravity.
