

Religion and American Politics: From the Colonial Period to the Present

How do religion and politics interact in America? How has that relationship changed over time? Why have American religious and political thought sometimes developed along a parallel course while at other times they have moved in opposite directions? These are among the many important and fascinating questions addressed in this volume. Originally published in 1990 as *Religion and American Politics: From The Colonial Period to the 1980s* (4921 paperback copies sold), this book offers the first comprehensive survey of the relationship between religion and politics in America. It features a stellar lineup of scholars, including Richard Carwardine, Nathan Hatch, Daniel Walker Howe, George Marsden, Martin Marty, Harry Stout, John Wilson, Robert Wuthnow, and Bertram Wyatt-Brown. Since its publication, the influence of religion on American politics--and, therefore, interest in the topic--has grown exponentially. For this new edition, Mark Noll and new co-editor Luke Harlow offer a completely new introduction, and also commission several new pieces and eliminate several that are now out of date. The resulting book offers a historically-grounded approach to one of the most divisive issues of our time, and serves a wide variety of courses in religious studies, history, and politics.

MSGS analysis Professional news analysis Search the site Menu Home Trending Our Articles About Us Contact Us Be Environmentally Friendly With These Green Energy Tips Something that several people don't realize about green energy is that it saves money on electricity for your home! While there are numerous benefits for the environment, going green is expanding your knowledge of landscaping to improve your home For some people, the thought of a well-manicured lawn and beautiful landscaping, is only a reality for large mansions and wealthy home owners.
