

# The Stylistics of Poetry: Context, cognition, discourse, history (Advances in Stylistics)

Written over the last thirty years, this collection of Professor Peter Verdonk's most important work on the stylistics of poetry clearly shows that the stylistics of poetic discourse is a diverse and valuable interdisciplinary. Discussing the poetry of Auden, Heaney and Larkin amongst many others, Verdonk covers everything from intrinsic textual meaning and external context in its widest sense to the readers cognitive and emotive response to poems. The book will appeal to all students on stylistics and literary linguistics courses, especially those focussing on poetry and poetic language.
