

Applied Physics

The present book is designed for the first year engineering students of Jawaharlal Nehru Technology University, Hyderabad. The Salient Features of the book are: It covers all the topics of the prescribed syllabus. The different concepts and propositions are developed in terms of simple physical phenomenon supplemented with theoretical derivations in a concise and explanatory manner. A set of solved examples are given at the end of each chapter. At the end of each chapter, a set of review questions, numerical questions and multiple choice questions have been given.
