The notion of redefining religions role in our lives is not an academic exercise. It is an urgent modern imperative. This book confronts all religious dogma. It challenges the idea and practice of the need for a middle man between man and God. It invites the reader to consider the modern rise of the Nones--the religiously unaffiliated--and to join this magnificent silent social tsunami. It explores with vivid and compelling narrative the story of the Nones showing the who, when, where and how of this revolt against religious corruption and its preoccupation with power, money and politics. Born in the East, Lebanon, living in the West, Canada, Elie M. Nasrallah, offers the reader emotion-ridden stories as he draws from personal experience of the Lebanese War, to highlight the role of organized religion in the Middle East and around the world. The content and style are both provocative and captivating making the theme timely and timeless. Are you fed up with orthodoxy and willing to free yourself from the shackles of conformity, outdated practices and stale tales of the tribe? If so, then this book is for you.
