

Inconsistencies in Greek and Roman Religion II: Transition and Reversal in Myth and Ritual (Studies in Greek and Roman Religion, Vol 6) (v. 2)

This is the second of a two-volume collection of studies on inconsistencies in Greek and Roman religion. Their common aim is to argue for the historical relevance of various types of ambiguity and dissonance. While the first volume focused on the central paradoxes in ancient henotheism, the present one discusses the ambiguities in myth and ritual of transition and reversal. After an introduction to the history of the myth and ritual debate (with a focus on New Year festivals and initiation) in the first chapter, the second and third chapters discuss myth and ritual of reversal Kronos and the Kronia, and Saturnus and the Saturnalia respectively; the fourth treats two womens festivals that of Bona Dea and the Thesmophoria; the fifth investigates the initiatory aspects of Apollo and Mars. In the background is the basic conviction that the three approaches to religion known as substantivistic, functionalist and cultural-symbolic respectively, need not be mutually exclusive.
