

# Working Together for Professionals in Health Care: Communication Skills for Collaboration and Teamwork

Do you want to reduce conflict and disharmony among coworkers and ensure mutual respect, collaboration and support? Workplace harmony and healthcare employee satisfaction are powerfully interrelated. Conflict among coworkers affects patient care and service. Also, important projects may suffer as coworkers spend their energy on troubling or non-existent relationships. That's why it's so important to develop employee awareness and skills related to coworker relationships. This short book addresses how people interact at work, how and why differences arise, what to do when they arise, and how you can personally influence the quality of relationships you have with other employees on the job. This book is ideal for individuals who may benefit from greater self-awareness about their relationships at work. It is also a useful text for staff development workshops and coaching and a powerful tool to effect greater healthcare employee satisfaction. Working Together is the resource you need to build a cohesive and productive environment in your organization.
