

# Analysing Real Texts: Research Studies in Modern English Language

This book is intended for anyone studying the way the English Language is used in real texts. Hillier presents a series of principled and fully-explicated research studies, selecting linguistic frameworks as appropriate from discourse, grammar, phonetics and phonology, and demonstrating their application to texts ranging from literary narrative to informal talk. It shows what might be done, while at the same time aiming to stimulate independent enquiry and exploration.
