

Photons in Natural and Life Sciences: An Interdisciplinary Approach (Springer Series in Optical Sciences)

The book describes first the principle photon generation processes from nuclear reactions, electron motion and from discrete quantum transitions. It then focuses on the use of photons in various selected fields of modern natural and life sciences. It bridges disciplines such as physics, chemistry, earth- and materials science, proteomics, information technology, photoelectrochemistry, photosynthesis and spintronics. Advanced light sources and their use in natural and life sciences are emphasized and the effects related to the quantum nature of photons (quantum computing, teleportation) are described. The content encompasses among many other examples the role of photons on the origin of life and on homochirality in biology, femtosecond laser slicing, photothermal cancer therapy, the use of gamma rays in materials science, photoelectrochemical surface conditioning, quantum information aspects and photo-spintronics. The book is written for scientists and graduate students from all related disciplines who are interested in the science beyond their immediate research field. It is meant to encourage interdisciplinary research and development in an age where nanoscience results in a convergence of formerly more disparate science.

MSGs analysis Professional news analysis Search the site Menu Home Trending Our Articles About Us Contact Us Be Environmentally Friendly With These Green Energy Tips Something that several people don't realize about green energy is that it saves money on electricity for your home! While there are numerous benefits for the environment, going green is expanding your knowledge of landscaping to improve your home For some people, the thought of a well-manicured lawn and beautiful landscaping, is only a reality for large mansions and wealthy home owners. There are a lot of things to solve your acid reflux puzzle thanks to these tips Everyone knows that a person with acid reflux suffers from discomfort and pain each day. You really can control the acid as long as you learn what steps to take Business & Economics books ? the correct choice to achieve success in the sphere of business Economics deals with the analysis of human behaviour on choice and the line of attack applied to make related investment and decisions on production ? particularly how those decisions are Great solutions for an outstanding website A website caters to the demands of the clients and provides access to the services and products offered by a business. A well designed and developed website attracts customers, Karolina Pliskova rallies past Puig to avoid Indian Wells upset | Reuters Karolina Pliskova roared back from a set down to outlast Olympic gold medalist Monica Puig 1-6 6-4 6-4 as the Czech third seed avoided a major upset at the Previous Recent Posts Be Environmentally Friendly With These Green Energy Tips
