

Historical Encyclopedia of U.S. Independent Counsel Investigations

This volume is a compilation of the U.S. federal special prosecutor/independent counsel investigations spanning the complete twenty-one year tenure from 1978-1999 of the independent counsel statute. The entries include individuals who have served as investigators; those who have been targets of investigations; all attorney generals who have called for appointment of special prosecutors; all presidents during whose terms of office such prosecutors served; and all legal cases that served to argue for or against the constitutionality of the independent counsel statute. These historical precedents are traced from Ulysses Grants appointment of a special prosecutor to investigate the St. Louis Whiskey Scandal in 1875. More contemporary cases include Watergate, precipitated by Richard Nixons Saturday Night Massacre dismissal of Special Prosecutor Archibald Cox in 1973; Independent Counsel Lawrence Walshs Iran-Contra Investigation; and Special Prosecutor Ken Starrs Whitewater investigation of the Clintons and the ensuing permutations which brought individuals like Linda Tripp and Monica Lewinsky to prominence and also brought the statute calling for such investigations into constitutional debate. The book is fully cross-referenced and contains a comprehensive bibliography and index. It will be of interest to scholars and students of American History and Constitutional History.
