The tests a golfer faces on the course are the direct result of the challenges originally faced by the golf course architect, whether they be complicated terrain, forces of nature, budget limitations, demanding developers, or the difficult task of balancing the practical scientific needs of a golf course with the architects creative instincts. Secrets of the Great Golf Course Architects offers readers behind-the-scenes tales from Americas master architects themselves in their own words. Elite designers such as Tom Fazio, Jack Nicklaus, Pete Dye, Rees Jones, Robert Trent Jones Jr., Arthur Hills, Arnold Palmer, and others share their personal anecdotes related to the creation of some of the worlds most famous courses: from run-ins with snakes to bulldozers sinking in quicksand, to holes created by accident, such as the famed island green 17th at the TPC at Sawgrass. Published in collaboration with the prestigious American Society of Golf Course Architects, Secrets of the Great Golf Course Architects includes more than 150 beautiful full-color photographs and dozens of drawings and course blueprints, making this a first of its kind insiders look at golf course architecture sure to become a key addition to the libraries of all golfers with an appreciation for the courses they play.
