

Guide to Reference in Medicine and Health

Drawn from the extensive database of Guide to Reference, this up-to-date resource provides an annotated list of print and electronic biomedical and health-related reference sources, including internet resources and digital image collections. Readers will find relevant research, clinical, and consumer health information resources in such areas as Medicine Psychiatry Bioethics Consumer health and health care Pharmacology and pharmaceutical sciences Dentistry Public health Medical jurisprudence International and global health. Guide to Reference entries are selected and annotated by an editorial team of top reference librarians and are used internationally as a go-to source for identifying information as well as training reference professionals. Library staff answering health queries as well as library users undertaking research on their own will find this an invaluable resource.
