

The ISO 9000 Quality System Checklist

The ISO 9000 Quality System Checklist is designed to help users save more than 1300 hours of development time by providing a comprehensive auditing checklist, recording forms and a training class on how to use the materials and perform an audit. For ease and accuracy, accompanying IBM Microsoft Word 6.0 diskettes allow users to reproduce forms, adjust them to their needs, and keep track of them online. This ideal audit tool provides a structure for planning the audit by element or department method, ready-made checklists and forms that can be handed to auditors, forms with matching data entry templates for audit reporting, an auditors training class and auditors guide book, and audit records that include every detail that registrar auditors want to see.
