

# Enhancing Production: A Research and Case Based Approach

The book most successfully tackles the versatile area of production engineering, system engineering, software engineering and integrated product and process development. Statistical product control for software empirical analysis of massive maintenance process, modern statistical control and improvements, the ways and means to improve performance, new patterns of management, the human side of enterprise, trouble shooting and solutions of occurring problems in production processes and the most analytical and strategic way of product development have been expressed in most pragmatic way on the basis of own experiences. The methods and ways to reduce the product cost and to make the production with high quality standards, based on own experiences have been depicted in a way that everyone can learn from that. Dr Ashok K Chauhan, Founder President, Ritnand Balved Education Foundation (RBEF) This book is an outcome of a deep dive taken by the authors into the Indian plastic industry, to explore and find the levers for enhancing industrial production. A real-life case on an Indian enterprise (Kunstocom India Ltd.) has been taken as a case on which the study was based. Statistical Process Control, Organizational Culture, and Entrepreneurship and Innovation are the main pillars of the book. The book looks at almost all important aspects/variables of enhancing production, namely, quality-price-ratio, value of the product, customer satisfaction, getting into the root of every aspects of production, employee engagement, and so on. Various well-known theories in the area of production/operations have been discussed in various contextual settings. This book will be an immensely useful resource for industry professionals, especially those who manage production and who are in constant pursuit of improving their processes and outcomes. Although the

book is anchored on the Indian plastic industry, the subject matter is universally applicable, in any industrial production setting. Students of production and industrial engineering and management will find the book motivational and horizon-broadening.
